PREBUY TERMS

- All Prebuy orders must be paid for **before** picking up or shipping.
- Orders are scheduled and shipped first come, first served. Pickups must be scheduled in advance.
- Please submit your order as soon as you are able. Turnaround times can be long during our busiest season, and inclement winter weather may delay your delivery.
- After December 21st, wholesale pricing will be in effect for all new orders.
- All pricing is subject to change.

Ordering is simple!

Fort Vee

All Purpose Compost-Based Potting Mix

Our flagship soil, Fort Vee is a complete germinating and growing-on mix designed for soil blocking that is also excellent for trays, pots, and containers. This living soil provides balanced nutrition and exceptional texture to grow vibrant, sturdy transplants.

Fort Light

Lightweight Compost-Based Potting Mix

This potting soil has all the benefits of a compost-based mix plus additional drainage. A complete germinating and growing-on mix, Fort Light is particularly desirable for growers using smaller celled plastic flats or where lighter weight is preferred.

Fort Vee / Fort Light*	Early Bird	Late Fall	Flexible	Full Truckload	Current Wholesale
2 yd Sling – 1+ slings	\$586	\$623	\$660	—	\$733

*Listed prices include discount. Prices are Freight on Board from our Montpelier site. Each pallet contains approximately 2 cubic yards of soil.

Perennial Blend

Large Container & Raised Bed Mix

Coarser than Fort Vee or Fort Light, Perennial Blend is formulated for filling raised beds and large containers. It mimics naturally fertile garden soil and is particularly suitable for woody plants, shrubs and herbs, and also performs well in vegetable and flower beds.

Compost Plus

Container & Transplant
Booster Mix

Packed full of nutrients, minerals, organic matter, and soil life, Compost Plus can replace liquid or granular fertilizer in your soil health program. Diverse microbes quickly make nutrients available, feeding the soil to nourish your plants. Compost Plus can be applied at transplant, as a topdress, or to reinvigorate tired soils.

Jolly Roger

Flowering & Fruiting
Container Mix

Jolly Roger is specifically crafted for container cultivation of plants with high nutrient needs, including tomatoes, cannabis, and hemp. Transplant into Jolly Roger once plants are fully established, and prepare to be impressed by a vigorous vegetative phase and bountiful yield.

Manure Compost

Living Soil Amendment

This mature compost blend is the basis of all the soil mixes we make. Carefully crafted for field and greenhouse applications, manure compost increases organic matter, soil tilth, and nutrition. Like all our products, manure compost is tested for maturity and is free of live weed seeds. Manure Compost is screened to 3/4" or less to ensure a consistent, refined product.
